### BOARD OF WATER RESOURCES' POLICY

regarding

### ENGINEERING AND INVESTIGATION COSTS

1. The project cost is the amount of money advanced by the Board to the applicant for all costs related to the project, plus the costs incurred by the Division of Water Resources for investigation, administration, engineering, and construction inspection. These two elements of the project cost are paid to the Board according to the terms set by the Board at the committal of funds.

2. Normal engineering, investigation, and administrative costs incurred by the Division of Water Resources during preliminary project investigation will not become a charge to the applicant if the project is found infeasible, denied by the Board, or if the applicant withdraws the application.

### PROJECT COST AGREEMENT

We have been authorized to sign this form and make application for assistance on behalf of the applicant. We have read the "Guidelines for Applicants Seeking Financial Assistance from the Board of Water Resources", accept the policy and conditions enumerated therein and above, and request assistance in constructing the project described.
