Re: Selling Water Shares

Dear Shareholder:

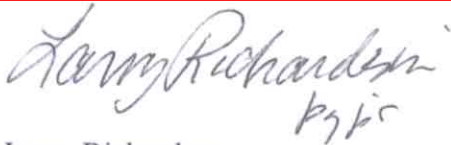

Recently many residents of our area have received postcards and other had other contacts from individuals or companies interested in buying "water" shares of stock in the Lower Mill Creek Irrigation Company. They want to purchase the shares in order to take the water away from the Company and neighborhood and sell it, at much higher prices, elsewhere.

The Irrigation Company has consistently believed that water should remain for use in our neighborhoods and not be subject to water speculation. Indeed, just last year, at the Annual Shareholders' meeting, the shareholders approved amendments to the Articles of Incorporation and By-laws to state that only individuals that own property adjacent to Company ditches and canals can own voting Class A-1 Shares in the Company and that such shares must stay with the property unless the Board of Directors agree to change the Shares to non-voting Class C shares.

If you desire to sell your water shares, contact the Company and we will see if there are other neighbors within the Company's service area that would like to purchase them. **DON'T VIOLATE COMPANY BY-LAWS BY SELLING TO SPECULATORS.**

If you have any questions, please feel free to call either myself, Larry Richardson 486-4979 or Jan Striefel at 484-1532.

Sincerely,

Larry Richardson
President, Lower Millcreek Irrigation Company
Board of Directors
