Below are figures obtained from the Salt Lake City water department on March 28, 2008 by GRAMA:
Total Metered Canyon Sales in Million Gallons SLC Public Utilities March, 2008

2007	1,215 million gallons	(3,728.698 acre-feet)	1998	100 million gallons	(306.8873 acre-feet)
2006	719 million gallons	(2,206.5196 acre-feet)	1997	94 million gallons	(288.47406 acre-feet)
2005	814 million gallons	(2,498.0626 acre-feet)	1996	108 million gallons	(331.43828 acre-feet)
2004	644 million gallons	(1,976.3542 acre-feet)	1995	58 million gallons	(177.99463 acre-feet)
2003	448 million gallons	(1,374.8551 acre-feet)	1994	97 million gallons	(297.68068 acre-feet)
2002	385 million gallons	(1,181.5161 acre-feet)	1993	107 million gallons	(328.36941 acre-feet)
2001	374 million gallons	(1,147.7585 acre-feet)	1992	76 million gallons	(233.23534 acre-feet)
2000	412 million gallons	(1,264.3756 acre-feet)	1991	84 million gallons	(257.78533 acre-feet)
1999	259 million gallons	(794.8381 acre-feet)	1990	60 million gallons	(184.13238 acre-feet)

Note: 1 million gallons is 1,000,000 gallons / 325,851 gallons in 1 acre-foot = 3.068873 acre-feet per 1 million gallons.
The acre-feet figure is calculated and included for perspective.
