WATER RIGHTS
SALT LAKE

WATER RIGHT NO. 57-10186 **APPLICANT:**

STATE OF UTAH
COUNTY OF Salt Lake

LeRoy W. Hooton, Jr., Director, Salt Lake City Department of Public Utilities, being first duly sworn that he or she is the (agent of the) owner of the above number application; that the information given is true and correct to the best of his or her knowledge.

Describe briefly the type, extent, and cost of construction completed to date, and the estimated cost of any remaining construction to complete the project and to submit PROOF of BENEFICIAL USE. Give reasons why the work could not be completed and water put to beneficial use within the time allowed.

The water represented by change application a24006 (57-10186) has been placed to beneficial use within the service area of Salt Lake City and irrigation company service areas receiving replacement water under contract with Salt Lake City. Additional time is required to submit proof of beneficial use in order for the City to develop additional secondary water system facilities for further beneficial use throughout the City's service area. Significant capital, operation and maintenance costs have been incurred by the City for development and use of irrigation water under this water right over the past 100 years. The City expended $79,080 for a Water Efficiency Study in 2001/02, which evaluated development of a pressurized secondary water system for further use of Utah Lake and other secondary water sources. Design and construction of the pilot system is anticipated in the next year. Salt Lake City is holding this application in part to meet the future requirements of the public, which under Section 73-3-12 2(j) Utah Code Annotated constitutes reasonable and due diligence.

Pursuant to Section 73-3-12, Utah Code Annotated 1953 (as amended), request is made for REINSTATEMENT and EXTENSION OF TIME for filing proof from

November 30, 20 03 to November 30, 20 08.
